### Our Purpose

Young Adults from across the globe come to Cumorah Academy to prepare themselves to be leaders in their families, the Church, their professions and their communities. While on campus, we empower them with the knowledge, skills and attributes they need to be happy and successful in the spiritual, social, emotional and professional aspects of their lives.

Regardless of their ability to pay, students gather on our unique campus for an immersive and rigorous, Christ-centered leadership and personal development program. What they learn in the classroom is important, but the greatest learning comes as they practice those skills while working on group projects and meet individually with mentors outside of the classroom.

### The Outcome

Young Adults who are Highly Motivated, Resilient & Uniquely Prepared to Love, Lift & Lead Themselves & Others!

### Global Impact

- 117 Students in '23 (not counting Fall)
- Alumni is Up to 338 Students from 30+ Countries

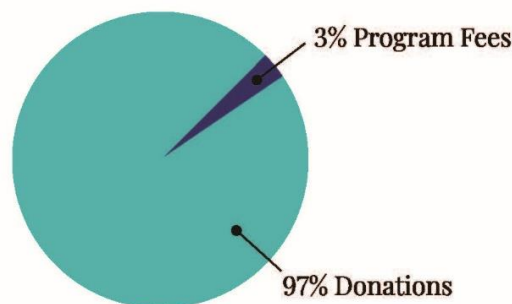

### New Program Offerings:

- Coding/IT
- Sales

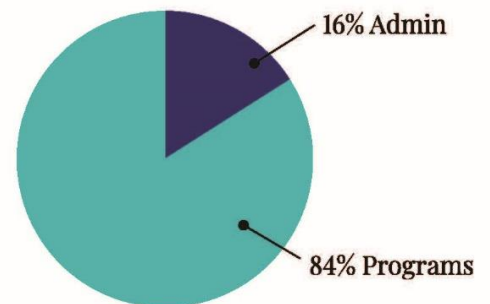

### New Initiatives:

- Career services
- Work-study program
- Alumni association

### The '22 Financials

## Accelerating Impact for Young Adults

### Measuring & Reporting Impact

#### The Need...Before Program

- Fernanda's relationship with God wasn't extremely important, and she didn't see how faith defined her, her purpose, or influenced any of her decisions.
- She learned she could "find a way" through challenges, but she could see how her growing anxiety and a darkening mind-set was taking a toll on her resilience and hopefulness.
- Immersed in relentless difficulties, Fernanda had very few opportunities to even think about improving her capacity to earn a higher wage, much less "leadership" opportunities.

#### The Solution...After Program

- Fernanda prays daily and considers her relationship with God as extremely important, which now defines her and provides meaning and purpose to her life; she can't imagine making decisions outside of her faith and relationship with God.
- Hopefulness towards her future is the most observable improvement for her, which includes renewed resilience, all resulting from her investment into her capabilities, new relationships and opportunities while at Cumorah.
- Fernanda feels as though she emerged from Cumorah with not only a new mind set, but tools, techniques and a deep reserve of strength to pursue new and increased wage opportunities, personal and professional connections...and has already stepped into several leadership roles!

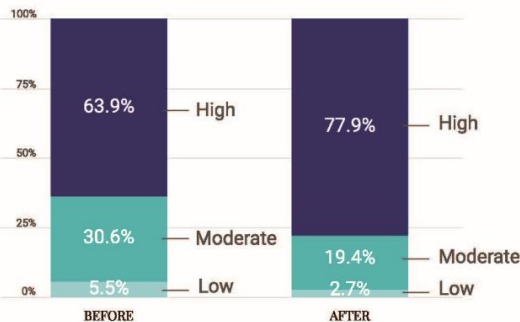

*Cumorah helped me to visualize a perspective for my future. My whole life changed positively by having this experience, and I will never forget what this place has taught me.*

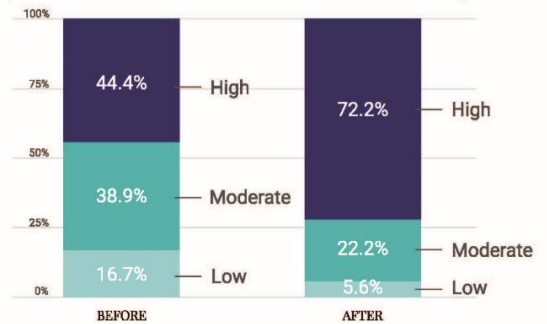

- Fernanda, Brazil

### Measuring System-wide Impact

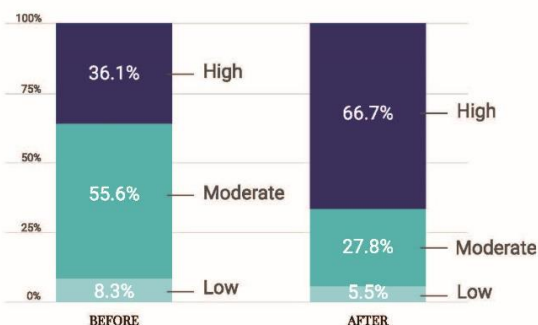

Percentage of Students with **Low, Moderate and High Faith** Before and After the Program

Percentage of Students with **Low, Moderate and High Hopefulness for the Future** Before and After the Program

Percentage of Students with **Low, Moderate and High Emotional Resilience** Before and After the Program

Percentage of Students with **Low, Moderate and High Leadership Ability** Before and After the Program
